

Disaster Related Safety Confirmation

Disaster Voice Message Dial – 171

NTT activates its Disaster Emergency Message Dial when it is difficult for phone calls to get through to a disaster-stricken area after occurrence of a disaster such as an earthquake. This service does not require any prior registration. The activation of the service is announced on TV and radio. The service is not available during normal times.

- Messages can be recorded for landline telephone numbers in disaster-stricken areas.
- Messages can be played back by ordinary phones, mobile phones, PHS, public phones, etc.
- Your recorded message will be stored within 48 hours.
- Date of Experimental Use:
 - The 1st day and the 15th day of every month
 - The first three days of January
 - Disaster-prevention week (Aug. 30 – Sep. 5)
 - Disaster-prevention and volunteering week (Jan. 15 – Jan. 21)

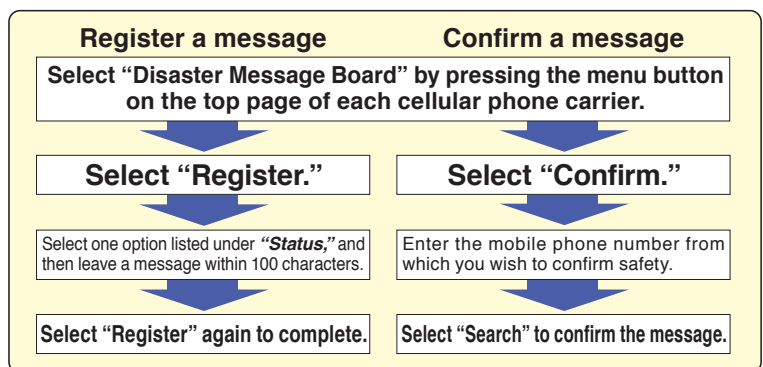

Disaster Message Boards on Cellular Phones

Each mobile phone company provides a Disaster Voice Messaging Service that enables you to confirm the safety of your family and friends in the event of a large-scale disaster.

If you live or are in a disaster-stricken area, you can post your status from your mobile phone. The posted information can be confirmed from around the world through the Internet.

- Usage of this service differs depending on the cellular phone model and carrier you use.
- You can confirm messages on the board from a different carrier's mobile phone or PC.

Distribution of Disaster Prevention Information

Safety Mail Distribution Service for Prefectural Residents

Oita Prefecture distributes "Safety Mail for Prefectural Residents" by which residents can receive disaster-prevention information, such as weather warnings and earthquake information, on their mobile phones and computers via e-mail. Subscribe to this service to prepare yourself in case of emergency.

Information to be distributed:

Weather warnings, earthquake information, tsunami information, volcanic information, landslide warnings, flood forecasts, tornado information, emergency information in disasters, photochemical oxidant information, and food poisoning information

How to subscribe

* Subscription and information provision is free of charge
